Major: Computer Animation

Minor: Game Art and Design

EXPERIENCE

March 2010- September 2010 **Buck TV** New York, NY

Animation/3D Intern

- During the course of a six month internship, I did a wide variety of tasks in a production environment. I did 2D and 3D animation that helped the studio get jobs and was used in final products. I created concept art for characters that were chosen for production. I modeled and rigged simple elements. I completed all work quickly and efficiently and adapted to every task given to me, regardless of whether it was within my skill set or otherwise.

2009 **Johnny Underscore** San Francisco CA

Freelance Artist

- Created a series of illustrations to be used for the opening of a children's show. Adapted clients concepts into pleasing illustrations. Also did random graphic design for packaging elements used in the show, as well as concepts for the show logo.

2009 **Whizabang LLC** Sunnyvale, CA

Freelance Animator

- Created short flash animations for an online greeting card business. Was given complete creative responsibility concept wise. Tweaked animation to the client's liking and completed work in a timely manner.

2007-2008 **Ringling Academic Resource Center** Sarasota, FL

Writing Consultant

- Consulted fellow students to help them improve the quality of their written assignments. Dealt with everything from simple grammar and syntax issues to content organization. Also ran an information and recruiting booth for the Academic Resource center at Student Organization Fairs. Chosen for position based on excellent written and verbal communication skills.
